REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to an emulsion of large, abrasive sharp edged magnesium and/or aluminum oxide coated with methicone. The emulsion further comprises gel-like carries, which are useful for skin rejuvenation. The prior art of Fowler et al (USPN 5,753,245) recognizes the abrasive properties of aluminum oxide particles, though the reference does not recognize or teach the particle size or coating limitations of the instant claims. The reference does not recognize the methicone coating along with its' distinct concentration and subsequent application and testing process as described in the instant claims. This combination creates a covalent bond that produces a superior product. The product of the instant claims is less expensive than similar dermabrasive products. For these reason the claims are novel of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Micah-Paul Young whose telephone number is 571-272-0608. The examiner can normally be reached on M-F 7:00-4:30 every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page can be reached on 571-272-0602. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
